# ESSENTIAL

Did you know that for most businesses, IT is the second-largest budget item after employees?

OnStar IT provides your first line of defense, protecting your IT investment by delivering

Why SMB's are adopting Managed Services:

Approximately 7 in 10 end-user organizations today contract with a MSP for some or all of their technology needs, according to a recent survey report published by CompTIA.

The CompTIA study found 46% of the current users of MSPs have reduced their annual IT expenditures by 25% or more as a result of their shift to managed services, with 13% experiencing 50% or more IT savings.

These savings and other business benefits have driven 62% of the current users of MSPs to plan to increase the proportion of their IT operations managed by MSP over the next two years.

...users of MSPs have reduced their annual IT expenditures by 25% or more...
